Will donate to a family in need. Must provide information from medical diagnosis or doctor.

MEDICAL EQUIPMENT AVAILABLE FOR DONATION

Invacare microAIR Alternating Pressure Mattress

The microAIR MA55 mattress features a state-of-the-art compressor and quick connect coupler for easy setup and effective therapy cycles. For added peace-of-mind, the solenoid valve system allows the mattress to remain inflated during a power outage.

- Adjust pressure by 25%, 50% or 75% for customized comfort
- Lockout button prevents against tampering or accidental adjustments
- Manual fowler button prevents bottoming out
- Roll up mattress and use carrying strap for convenient carrying and storage
- Dual-layered, quilted nylon cover helps reduce friction and shear

Other Items Available for Donation:

- Movable metal bed rail that folds for easier storage. Goes underneath mattress for positioning anywhere on the bed.
- Bed rail pad with velcro attachments. Is the length of the bed.
